

EST
WOOD

DELIVERED KNOCK-DOWN DIRECTLY FROM FACTORY OR FROM OUR WAREHOUSE

EASY TO STORE, EASY TO BUY AND EASY TO ASSEMBLE

WELCOME TO THE WORLD OF NATURE

ESTWOOD is a well developed concept of wooden items which can meet the world market's demands both in quality, pricing and logistic terms. The products are produced in northern Europe. Our products are made of 100% natural material and have all the necessary certificates and meet all the big demands of the market today.

The concept includes packaging on EUR pallets which fit into all modern warehouses and logistics centers.

Our range is a knock-down kit which is a complete kit needed to assemble a product. It is also easy for the customer to carry and it saves a lot of space and freight costs.

Our new range of products elicits the desire to start growing plants and vegetables in your own garden. We create to make it easy for you.
